

Notice of Proposed No Further Action

For

Pacific Lumber Company Fortuna Mill
1440 Newburg Road
Fortuna, CA

Case Number 1NHU856

Humboldt County

Notice Posting Date: February 24, 2020

End of Comment Period: March 25, 2020

A soil and groundwater investigation was conducted at the above-referenced site and a release of petroleum hydrocarbons and chlorinated solvents were documented. Regional Water Board staff proposes that no further work be required. The purpose of this notice is to inform interested parties, including owners of nearby land, that the case is being considered for closure, and to invite public comment on this proposed decision.

Problem Description

Historic timber product manufacturing and maintenance of trucks and equipment resulted in impacts to soil and groundwater at this site. Soil and groundwater at and around the site have been investigated. Groundwater monitoring at the site has shown contamination in groundwater in the immediate vicinity of the site, but the contamination is no longer spreading. No water supply wells were impacted by this contamination

Proposed Action

Case closure with administrative controls including a deed restriction which limits uses to commercial/industrial, prohibits excavation without Regional Water Board notification, and prohibits use of groundwater for water supply. The deed restriction will include a soil and groundwater management plan which is designed to limit worker exposure in the restricted area during future redevelopment of the property.

Unless significant comments are received or new information is presented regarding this site, Regional Water Board staff plans to proceed with the closure process upon conclusion of the comment period. Please contact Julie Duong at (707) 576-2703 or Julie.Duong@waterboards.ca.gov with any questions or comments. Written comments may also be submitted to:

North Coast Regional Water Quality Control Board

Regional Water Board site records comprise both a paper file and an electronic file. Beginning in 2005, select file material was uploaded to the State Water Resources Control Board's GeoTracker website and not necessarily included in the paper file. All new file material after 2014 is retained only electronically. [The GeoTracker records](#) are available at

http://geotracker.waterboards.ca.gov/profile_report.asp?global_id=T0602391193.

The paper file ("Pacific Lumber Company Fortuna Mill", Case No. 1NHU856) may be reviewed at the North Coast Regional Water Quality Control Board office from 8:00 a.m. to 5:00 p.m. Monday through Friday. Appointments are recommended and can be arranged by calling (707) 576-2220.
